

Feeding Forage

Horse Height	Estimated Weight	Minimum 1% Forage	Maintenance 2% Forage
30"	200 pounds	2 pounds	4 pounds
32"	225 pounds	2.25 pounds	4.5 pounds
34"	250 pounds	2.5 pounds	5 pounds
36"	275 pounds	2.75 pounds	5.5 pounds
38"	300 pounds	3 pounds	6 pounds

Note: The above are estimations – if you wish to be completely accurate you will need to weigh both your horse and your forage.

For weight gain, forage can be increased, incrementally or “free choice.”
